## TO CHANGE THE COMPATIBILITY VIEW

In the event that when you log into the EMT2010 Central Registry and you have a screen full of white space and have to scroll down to see the data fields, you will need to click the "compatibility view" button on your address bar, as seen below.

 When you click this button, the page will refresh.

Or

You can go up to your tool bar and pick "compatibility view" from your list, as seen below:

This will also refresh your page.
